- Telecom Solutions

ABOUT US

SNJ is a leading provider of comprehensive security solutions, specializing in physical entrance automation and networking services. With a commitment to innovation and excellence, we deliver tailored security solutions designed to meet the unique needs of our clients across various industries.

At SNJ, we recognize the vital role that security plays in the quickly changing world of today. Our team of professionals provides strong security solutions that protect your property, personnel, and assets by fusing state-of-the-art technology with in-depth industry experience.

We provide a complete roadmap to improve your organization's security posture, from physical entrance automation technology to access control systems and surveillance solutions. For optimum efficacy and efficiency, our solutions are easily integrated, scalable, and customized.

Delivering solutions that not only meet but also go beyond our clients' expectations is our top priority, and we do so with a focus on customer satisfaction. Regardless of the size of your company, we collaborate closely with you to comprehend your particular security requirements and provide specialized solutions that meet both your goals and your financial limits.

CORE VALUES

Customer First :

Our customers are at the heart of everything we do. We prioritize their needs, preferences, and satisfaction above all else, striving to exceed their expectations with every interaction and solution we provide.

Trust & Support :

We believe in building strong, trusting relationships with our clients based on transparency, honesty, and integrity. We are committed to supporting them every step of the way, providing expert guidance, assistance, and solutions that they can rely on.

Integrity & Ethics :

Integrity & ethics are the foundation of our business. We conduct ourselves with the highest ethical standards, always acting with honesty, fairness, and respect in all our dealings with clients, partners, and stakeholders.

Constructive Open Feedback:

We value open communication and feedback from our clients and team members. We actively seek out constructive feedback to continuously improve our products, services, and processes, fostering a culture of learning, growth, and innovation.

Opportunist:

We embrace opportunities for growth, innovation, and improvement. We are proactive and agile in identifying and seizing opportunities in the ever-evolving landscape of enterprise security, staying ahead of the curve, and delivering cutting-edge solutions that meet the evolving needs of our clients.

# INDEX

Solutions We Offer

Physical Entrance Automation

CCTV Solution

Access Control System

Fire Safety Solution

Networking Solution

Physical Entrance Automation

01 Speed Gate

Designed to meet the demanding needs of modern environments, our speed gates offer a robust solution for managing pedestrian access while enhancing the aesthetic appeal of any space. Featured with Biometric Integration, Smart Card Compatibility and Anti-Tailgating Technology it's a perfect blend of security, efficiency, and elegance.

02 Swing Gate

Transform your access control with our sophisticated swing gates, designed to offer a harmonious blend of security, style, and efficiency. Our swing gates are perfect for various environments, providing a robust solution for managing pedestrian access while adding a touch of elegance to any space.

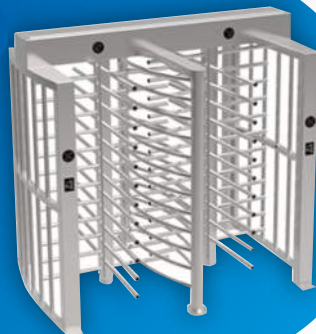

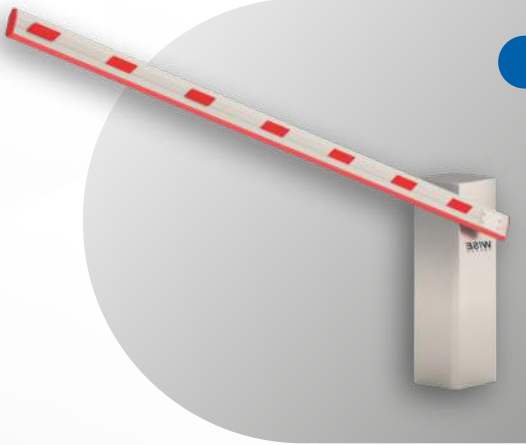

03 Turnstile Gate

Our advanced turnstile gates are designed to provide high security, efficiency, and durability. Perfect for a variety of environments, our turnstile gates ensure controlled and secure entry, seamlessly integrating with your existing security infrastructure.

04 Full Height Turnstile Gate

Maximize your security and control with our state-of-the-art full height turnstile gates. These gates are engineered for environments demanding the highest level of security and robust access control. Perfect for outdoor and high-security locations, our full height turnstile gates provide a formidable barrier against unauthorized access while ensuring smooth and efficient pedestrian flow.

05 Boom Barrier

Optimize your security and traffic control with our advanced boom barriers. Designed for a wide range of environments, our boom barriers offer robust solutions for vehicular access management, ensuring both security and efficiency. Ideal for parking lots, residential complexes, commercial premises, and more, our boom barriers provide reliable performance and ease of use.

06 X Ray Baggage Scanner

Designed for high-traffic environments, our scanners provide thorough and efficient screening of baggage and parcels, ensuring safety and security without compromising speed. Ideal for airports, government buildings, transportation hubs, and other sensitive areas, our X-ray scanners deliver reliable performance and advanced threat detection.

07 DFMD

Designed for high-traffic and sensitive environments, our metal detectors offer reliable, efficient, and precise detection of metallic objects, ensuring the safety and security of your premises. Ideal for airports, government buildings, schools, events, and more, our door frame metal detectors provide superior performance and ease of use.

06 HHMD

Elevate your security measures with our premium handheld metal detectors (HHMD), designed for portable, precise, and efficient detection of metallic threats. Perfect for use in airports, schools, events, security checkpoints, and other sensitive environments, our HHMDs provide a reliable solution for on-the-spot security screenings.

Upgrade your security infrastructure with our cutting-edge network cameras, designed for high-performance surveillance and reliable monitoring. Our network cameras offer superior image quality, advanced features, and seamless integration, making them the perfect choice for various environments, including corporate offices, retail stores, industrial sites, and public spaces.

01(A) Dome Cameras

- Compact Design
- 360 degree coverage
- Infrared Night Vision

02 Bullet Cameras

- High Resolution
- Long Range
- High Performance Imaging

03 PTZ Cameras

- Smart Analytics
- Motion Tracking
- 360 degree coverage
- Pre-Set Tours
- Zero Blind Spots

04 NVRs & DVRs

Elevate your surveillance infrastructure with our state-of-the-art Network Video Recorders (NVRs) and Digital Video Recorders (DVRs). Our recording solutions are designed to deliver unmatched performance, reliability, and ease of use, ensuring that your security footage is stored securely and accessible when you need it most.

Access Control System

01 RFID ACS

Upgrade your security infrastructure with our state-of-the-art RFID Access Control System, designed to provide secure, efficient, and convenient access management for any facility

Features :
• **Unique RFID Tags**
• **Anti-cloning technology**
• **Seamless Integration**

02 Fingerprint / Biometric ACS

Enhance your security infrastructure with our advanced Biometric Access Control System, designed to provide the highest level of security through unique biometric verification.

Ideal for corporate offices, government buildings, healthcare facilities, educational institutions, and other high-security environments.

03 Face Recognition System

Enhance your security infrastructure with our cutting-edge Face Recognition Access Control System, designed to provide seamless, secure, and efficient access management.

• **High Precision Recognition**
• **Anti Spoofing Technology**
• **Contactless Access**

04 Attendance Management systema

Optimize your workforce management with our cutting-edge Attendance Management System, designed to provide accurate, efficient, and effortless tracking of employee attendance.

• **Biometric / RFID card verification**
• **Live attendance updates**
• **Instant Notifications**
• **Customizable Metrics and Detailed Reports**
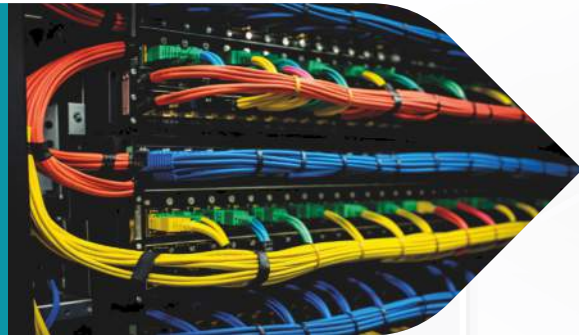

Networking solution

01 Data Centre Solution

• Modular Design
• High Density Computing
• Disaster Recovery
• Cyber Security

02 Structured Cabling Solution

• Superior Connectivity
• Fibre Optic Cabling
• Organized Cable Management
• Professional Installation

03 Wireless Network Solutions

• State-of-the-Art Wifi Standards
• Integrated Access Point (APs) connectivity
• WPA3 Encryption
• Bandwidth Managament
• Smart Load Balancing

04 Networking Accessories

• CAT6 Cables Optical Fibre Cables
• Racks and PDUs
• Patch Panels
• Cable Managers
• Modular Jacks and LIUs

04 Telecom Solution

• Unified Communications
• VoIP Solutions
• EPBAX Solutions
• Fibre Optic Network
• Enterprise Mobility Solutions
• Network Security
